

Notice of COVID-19 exposure

SMART has been notified of a Fixed Route Operator who tested positive for COVID-19. Out of an abundance of caution, SMART is advising riders of the routes the driver worked 14 days prior to the date of being identified as a presumed positive case.

SMART continues to clean buses and has had multiple applications of the electrostatic microbacterial spray treatments of the buses. The spray treatment will continue to be ongoing in addition to nightly cleaning of buses.

Below is a list of routes indicating the start time of each trip worked.

<i>Date</i>	<i>Route</i>	<i>Trip Direction</i>	<i>Trip Start Location</i>	<i>Trip Start Time (PM Bold)</i>
